

Bareboard Loader

Automatic feed from stack-up bare boards .

Audio alert for PCB supply runout.

Pass Through capability.

Front PCB Loading

Options available:

- Double board feeding detection error.**
- Retry pick up for fail error**

Machine Specifications	
Model:	BBL2000
Machine External Dim. (mm)	Lg 720 x W750 x Ht 1200 - excluding light tower ht.
PCB max size (mm)	Lg. 550xW380
Bare PCB stack up ht.	max. 220mm
PCB stack loading	Front loading
PCB Transfer Height	910+/-30mm
Cycle time	7secs.
Controls	PLC
Light Tower	3 colour light tower with fault detections
Interfacing	SNEMA
Machine colour (Standard)	Powder coated rough surface finish light grey code 9174
Power (Kva)	220Vac/1 phase or 110V/1 phse. (300KVA)
Air Pressure:	Min. 4 bars
Options:	Other size available on request.
	When ordering please specify flow direction and rail fix position.
